QUESTION

- > Does it show how dense trees are in Melbourne?
- > Does it show meaningful story trends.
- > Is it technically possible in vegalite?

LAYOUT

Dashboard Collection View

TITLE: Trees Dashboard

AUTHOR: ROSHAN SARAVANAN

DATE: 24/09/2025

SHEET: 2

TASK: FIT3179 Visualisation 2

OPERATIONS

1) The year slider can be used to control all the graphs.

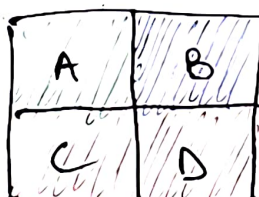

19xx ————— 20xx

2) The dropdown box can be used to select the precincts in the maps

FOCUS

▷ The main focus is the map near the top right

Bottom 4 Graphs

- A: Focus on tree species
- B: Focus on Area/Location
- C: Focus on Time
- D: Focus on Time.

DISCUSSIONS

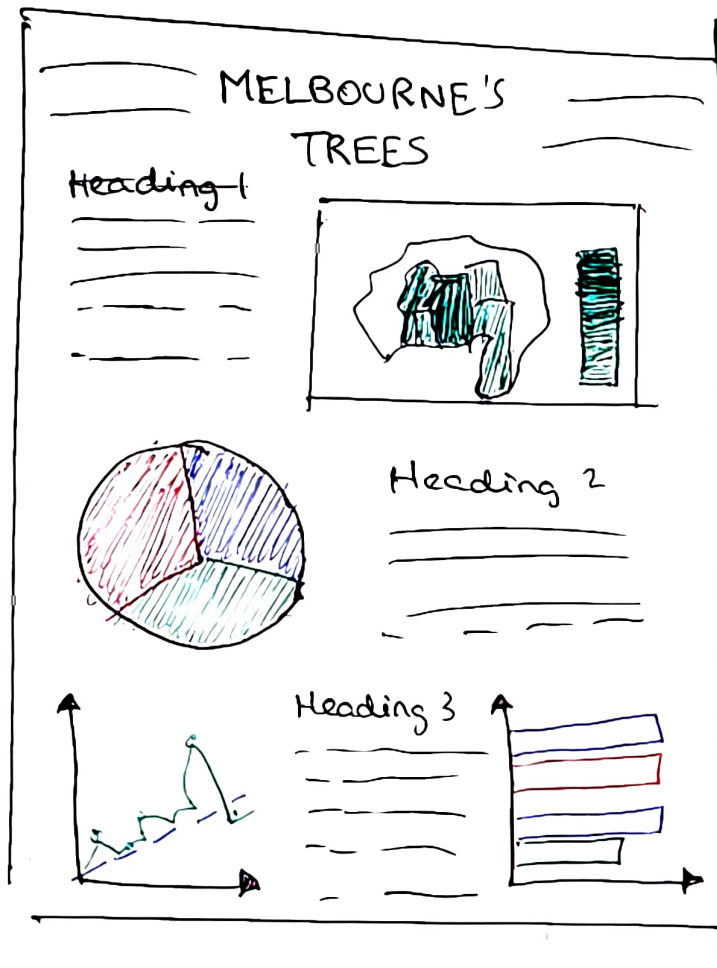

▷ No order that user follows.

▷ Line of sight isn't properly aligned

▷ Alignment will be harder in HTML compared to Tableau

LAYOUT

Poster-like Narrative

TITLE: Trees Poster

AUTHOR: ROSHAN SARAVANAN

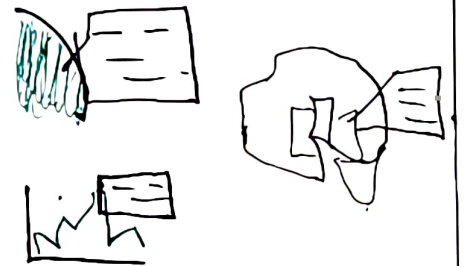

DATE: 24/09/2025

SHEET: 3

TASK: FIT3179
Visualization 2

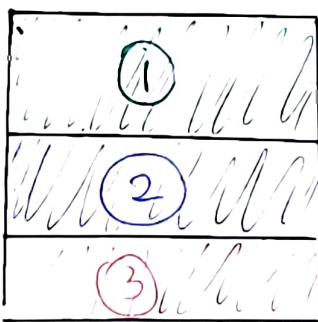

OPERATIONS

There will be tooltips on hover on all of the graphs and maps in this layout design.

FOCUS

In this poster, there is no main focus. It covers 3 aspects.

← Distribution of trees focus

← Focus about the trees themselves

← Focus on the planting trends.

DISCUSSIONS

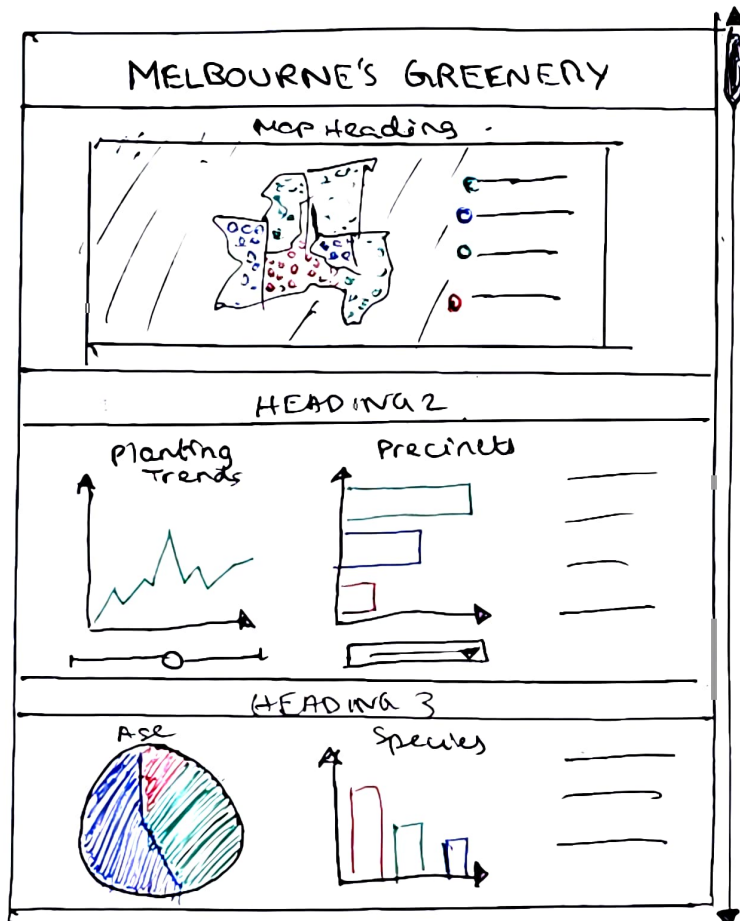

▷ Potentially too much text.

▷ Sight lines issue from previous design still exists but can be partially ignored as it is a poster informative.

▷ Less interaction apart from tooltips

LAYOUT

vertical scrolling
webpage layout

TITLE: Greenery Scroll Page

AUTHOR: ROSHAN SARAVANAN

DATE: 24/09/2025

SHEET: 4

TASK: Data visualization
2

OPERATION

▷ there will be
tooltips for the
map.

▷ Year selector
for modifying
the line chart

▷ species Dropdown
for precincts
bar chart

FOCUS

▷ The primary focus is the map
and as the user scrolls down,

Focus on Trends ||| + Area/Location

Focus on the Trees themselves

DISCUSSIONS

▷ Single line guided
storytelling is being
done now improving
on the issues of the
previous designs.

▷ Potentially easier
to implement in
HTML.

LAYOUT

Scrolling Spacious Dashboard Layout

TITLE: Final Design

AUTHOR: ROSHAN SARINAM

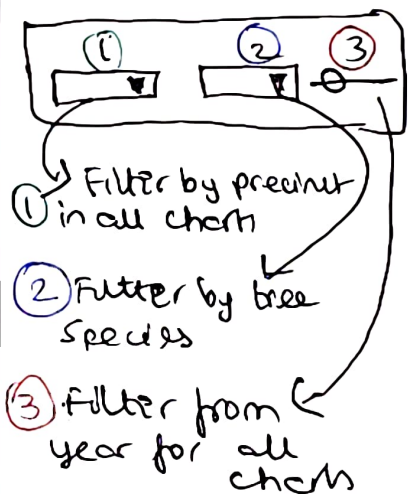

DATE: 24/09/2025

SHEET: 5

TASK: Data Visualization II

OPERATION

There is a filter bar at the top

FOCUS

The top filter bar and map focus on the location and distribution of trees in Melbourne letting the user feel the interactivity.

There are 4 graphs that provide additional insight on trees in Melbourne.

DETAIL

Acquiring a suitable precinct map may be difficult.

vanilla vega-lite should be enough for all the charts.

Data may need to be preprocessed.

Fulfills proposal/who/why/how.
